**Subject:** Air-Rail Link

### Air Rail Link

- The GTAA is committed to improving transit access to Toronto Pearson.
- The GTAA was asked by Transport Canada to make space at the airport to facilitate the train from downtown Toronto. TC has reimbursed the GTAA for its costs associated with this work – total of \$28 million, \$25 for the GTAA's work and \$3 million for land acquisition.
- The GTAA is not an investor, proponent or partner in the project, nor was it involved in the selection of the proponent, SNC Lavalin.
- The GTAA will enter into a commercial agreement with SNC Lavalin to ensure that the GTAA recovers any lost revenues as a result of the operation of the ARL, the specific terms of which are confidential.
