Subject: RE: GSC-ARL Timelines and Submission

Hayley:

Based upon the number and nature of the comments received to-date we concur that a two (2) week extension, to allow all parties - MOE, GO Transit, SNC and MRC – to review, discuss and respond to the issues and potentially amend the ToR, would be beneficial. Based upon this extension the timeline would be extended to 2 February, 2007

Does MOE require a formal written request to the Minister for this to occur?

Please advise.

Thanks

Subject: GSC-ARL Timelines and Submission

Hi Imants, Dennis and Mike

Attached please find another public submission that was received yesterday. Please add this comment to your tables and prepare the necessary response.

I would like to open our discussion up to the possibility of GO Transit requesting a timeout. Based on the amount and nature of comments that we have received and the timelines that have to be met, I think you may need a little more in order to adequately review and respond to the issues. As well, I will need time to review the responses. Based on the regulated timelines time is running out. Further, I would like to discuss possible amendments to the ToR based on some of the requests that have been received. If GO Transit is willing to take a timeout, we will have a little more breathing room to amend the ToR and resolve the issues. The timeout does not have to be for the entire 8 weeks.

I look forward to hearing back from you and discussing this further. Or if you have any questions please give me a call.
