Attachments: Comments on Draft ToR.pdf

Hi Judy

I'm attaching comments that I sent to Imants on the first draft of the ToR that went out in April. My comments dated April 28, 2006, still stand.

Overall, draft II is heading in the right direction. My comments, just try to tighten some things up.

I also wanted to add the following:

- Terminology – please try to use consistent terminology throughout. If an acronym has been defined then be consistent and use the acronym.
- Section 1.1 – ends with the 1994 Study. What has happened between 1994 and 2006? You should fill in the gap and explain how GO Transit has gotten to where it is today. Also highlight the fact that GO Transit has volunteered to complete an individual EA, when the project fits into GO Transits Class EA process
- GTTA – Section 2 identifies that GO Transit is officially the GTTA – how does this fit into the proposed GTTA proposed legislation?
- Section 4.2.1 – the last paragraph states “During the EA, the proponent will work closely with the affected agencies and public...” you should add Aboriginal Communities as a group you will work with.

If you have any questions, or would like to discuss my comments further please feel free to contact me. I look forward to our next meeting to discuss the ToR.

Subject: Corrected ToR draft to be sent to CLC

Imants

This is the correct ToR now and can be sent out.

As discussed, attached are PDFs of the ToR outline and the Evaluation Discussion paper for you to send out to the CLC committee today and to have Giffels place copies on the project web site. Vasie has the official distribution list for forwarding to the correct individuals or I would send them out myself. When you have time, could you make sure that I have a copy of that list. Could you also copy the appropriate Federal and Provincial representatives?
